RATEROAD NEW 4.

The Salt Like Tribune, of October 27th after in erviewing Bishop Sharp, Seco. d Vice president of the recently con-olids ted roads who has just returned from Buston, reports that gentleman as saying "The directors have decided to extenthe Utah Central division as soon as th construction department could get th graders to work from Milford, 110 mile to Pioche, and to make a start on th Nevada Pacific division 90 miles south west towards Berstow. This is a begin ning of the active work, waich will not be let up until California is reached, for as the Bishop says, they cun't afford t stop at 230 miles with the stub end o the track in the desert. They must g on. The line between Mi ford an Proche has been finally located, but be youd Pioche there are three surveye lines to choose from, and this will b done by Caief Engineer Bogue and hi assistant, who are now en route from Milford to Barstow by buckboard ex press. The cost of construction will b met by Consolidated railros I bonds to be issued shortly, and Bishop Sharp think Proche will be reached by May next For the 200 miles ordered built the 60 pound steel rails have already been bought, which insures starting the wor without delay, and as the Rio Grand Western construction forces finish rebuilding their road they can be shipped over onto the C- molidated road exten-

SILVER PARK DISTRICE. - This promiing section is ag in being favorably hears from. J. B. Gilbert and John Wagne recontly leased from Phelix Knight th R a side mine, formerly known as th H sample. After working a short tim ore was encountered and now a vein o free-milling ore, eighteen inches with and assaying 15) ounces to the ton is exposed, Mr. Gilbert was in town Toursday making arrangements to ship carload of ore, and to obtain a couple . men to work on the claim. The min looks exceptionally well and the lessee are confident of gen-rous retu n.

The concentrating department the Reduction Works made of the R-duction short trial run Tuesday aftern on About two tons of Half Moon ore wa run through and the result was extreme ly satisfact ry, the concentration bein. perfect. The concentrates assayed 10: ounces in silver while the tail ngs con tained but a trace of lead. Some of th screens needed altering and several of the revolving screen bixes required alteration to render them dust pro f. The work will be finished to-day, an I to-mor row a final start will be made.

Dr. G. M. Freeman, Specialist, ad vertised last week to be here Weinerday. Thursday and Friday, arrived Wednesday, but remained one day only. In or der to meet other appointments he was obliged to leave Friday morning tor Taylor. During the Doct or's short stay quite a number called for consultation.

R Hyman has just received a lot of ladies dress go de of the late-t patterns, including red, blue and white twiller flannels; also a lot of genuine buck gloves, and fine blankets, all of which will be a ld cheap for cash. Call and inspect the articles.

AS . RE . MEYT WORK

Should be Done Wh 1. There is no Post in the bround

The Mining and Scientific Press hathis timely article which is applicable to every mining camp: The till introduced in o Congress by Senator Stewart of Nevada, changing the date for the annual assessment work on unpatented mining claims, dil not become a law But at the same time there is no law which compels the miner to put off that work until the first of January. If the work is done now it will save consider able trouble and inconvenience It is foolish to wait until December when the snow is on the groun I in the mountain ous regions. A great deal more can be accomplished now for the same expendi ture of labor and money Frezen ground is not much easier to work than rick.

The men who intend to hold their claims nust do this work within the year, according to law. It was a neces--ity to fix some -tated period and days: but the work can be done any time in the year before that date. There is nothing at all gained by waiting until the lest moment, but on the coutrary there is less accomplished, and more discomfort, in waiting until the dead of Winter.

Of course, many miners only de this work becau-e the law requires it, but they should remember third is a gain to them in performing it, since it leads to a certain amount of development on the claim. Every year when this annual expenditure work is going on we hear of strikes in claims. Any man ay have this same luck. It the law provided that the work must be done by October, it would be done; there is no reason for not doing it in that month, law or no law. It will only be a shor, time now before the snow flies on the mountains, and those who take time by the forelock can have the laugh on their procrasti nating brethren of the pick.

IN T IN PIECO.

We publish to-day the first of a series of advertisements of one of the largest advertising houses of the country, under yearly contract, and the line of fine work of which this one is the initial diplay, will wear an old, familiar face to a large majority of our readers. These not familiar with such kindly anususcements, may be considered as belong ng to the uninitiated, who in due time, for their own future welfare, will become acquainted with the merits of so good a thing, so universally kn wn. Annually, with a system like the ri i g and serring of the sun, these greetings, which bear health and happiness to the people, make their show. It is a good sign of the standing and influence of a paper-if we may say so -to have its columns graced by the attractions of such reliable matter, an I to have de lings with a house of such character. With the newspaper fraternity such tras sactions are known to be always attended by fairness, prompt the Library. Every effort is being made nees and unfailing integrity on the part of the proprietors towards the publishers. Library in good running order, many a two end with these considerati ns. It is a pleasure and satisfaction always to know that what they say as advertisers, 1. as reliable as their word of honor. which, in turn, is as sound as gold. We give place therefore and make our col umn rules a frame to the picture of the good, old monk, and to all that may be said in behalf of the great remedy for pain St Jacobs Oil, with a surety of its truth and with a surety of the virtues of the compound. Their advertising this season is beyond their standard, always of the stronge-t and most eff. cive kind, and the testimonisls for the year 1889 t. the efficacy of this far-famed preparation are as convincing as ever.
